Core Studio 4 courses

The two core studios in first year establish foundational skills that you will build on and apply throughout your degree. In third year, core studios allow you to undertake a substantial self-directed creative work.

Disciplinary Studio (Studio Specialisations) 6 courses

In first year, choose from a range of introductory courses to expand your skills and knowledge. In second year, select at least two areas in which to deepen your practice.

There are five disciplinary studios to choose from:

- Animation
- Visual Effects
- Sound
- 3D Visualisation
- Moving Image

History & Theory 4 courses

Throughout the degree, you will critically engage with the histories and theories informing media arts practice. You will develop analytical, communication and research skills that will help you to understand and challenge the ideas shaping the future of media, art and culture.

Professional Practice & Experience 2 courses

We offer one of the country's longest running professional experience programs for university students. You will gain real-world creative media experience through professional placements with our extensive network of industry partners.

Elective & General Education 8 courses

Add to your repertoire of skills and knowledge through elective courses in a wide range of areas in art, design, media, and theory, as well as courses from across the university.

General education courses enable you to broaden your educational experience. You can choose from any general education course from across the university in areas that align to your interests.
